band sealers

General features

- ▶ Constructed with stainless steel and anodized aluminum and built for 24/7 operation
- ▶ Easily adjusted temperature and speed to acquire the right seal
- ▶ Two model choices to adapt with different size bags
- ▶ Custom configurations are available upon request
- ▶ Proudly made in Canada with CSA approved

Continuous rotary band sealing machines

The BS Series are durable and reliable continuous rotary band sealers that will seal a wide range of plastic bag materials such as nylon, polypropylene, laminates, tyvek/polyester and foil at a high speed.

Unique height adjustable stand with locking casters makes it easy to adapt various bags size.
