8	12	16
20	24	Other

Belt Type

Homogenous (TPE)
Modular

Wash away

The **SANI-PLUS conveyor series** from Saturn Packaging are conveyors specifically engineered to overcome the challenges of sanitary conveying. These conveyors are designed to allow easy cleaning in food, pharmaceutical, and other wash-down environments such as:

- ▶ Meat and poultry
- ▶ Fish and seafood
- ▶ Dairy
- ▶ Bakery
- ▶ Fruit and vegetable

Key feature

Saturn Packaging features a sanitary design which improves cleanability and minimizes risk of pathogen or allergen contamination with a homogenous food grade **thermoplastic elastomer belt (TPE)**.

These conveyors can also be designed to work with **modular plastic belts**.

Easy quick carry-way removal

Tool-less idler belt lift off

Corrugated side walls

Removable drum motor

Belt scrappers & IPK69K gear-motor
