tray formers

Automatic tray formers

The **T-FORM Series tray formers** from Saturn Packaging are designed to automatically form high-quality trays with speed, reliability, and repeatability. Available for hot melt glued trays or self-locking trays, T-FORM machines are ideal for food manufacturers looking for a robust and efficient solution for retail-ready packaging.

Base model key attributes

- ▶ Smooth integration to existing packaging lines
- ▶ Easily configured
- ▶ Available in different constructions to suit specific production environments
- ▶ Industrial performance
- ▶ 5 to 25 trays/minute

With a **wide range of tray dimensions** and adjustable format capabilities, the T-FORM Series can be configured for many applications including **Costco-style stacking trays**, display trays, and standard distribution trays. Machines are available in **painted steel** construction for general environments or **stainless steel** construction for hygienic and washdown food production areas.

Built for industrial performance and easy integration into packaging lines, the T-FORM Series operates on a **230V electrical system** and provides production speeds from **5 to 25 trays** per minute, depending on tray format and application.

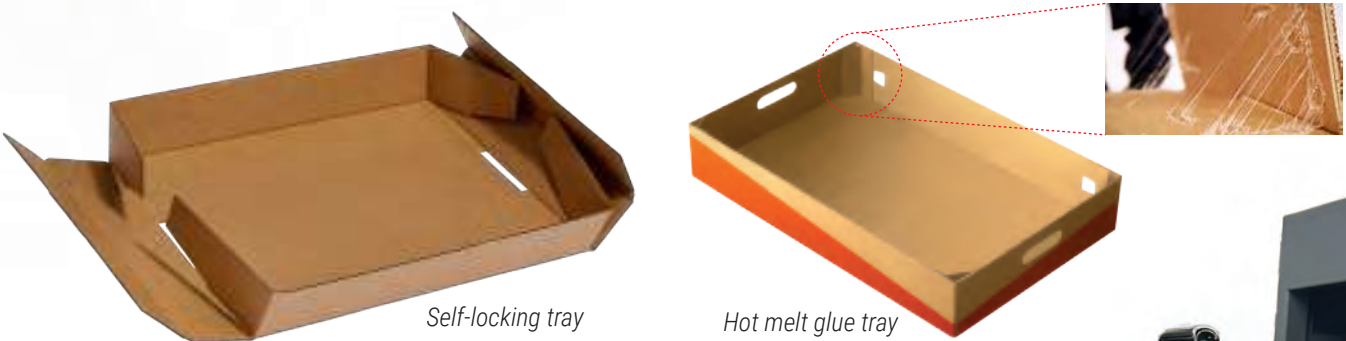

Technical features

Specifications	T-FORM Series
Tray / Box size range (L x W x H)	(170~270) x (120~170) x (30~60) mm (6.7~10.6) x (4.7~6.7) x (1.2~2.4) in
Speed	5 - 25 trays/minute (depending on tray format & material)
Electrical supply	220V, 50Hz
Air pressure	0.6 - 0.8 MPa (87 - 116 psi)
Machine dimensions (L x W x H)	1900 x 1300 x 2050 mm 74.8 x 51.2 x 80.7 in
Machine weight	850 kg (1,874 lbs)
